TELEGRAMS

(By Havas Agency)

Brussels, 16th.—There are still in many parts of the Kingdom numbers of miners who refuse to return to work; but the strike is not of alarming dimensions.

Naples, 16th—The eruption of Vesuvius has almost ceased.

Lisbon, 17th—The Minister of the Interior has laid an Emigration Bill before the Cortes.

Montreal, 17th—A new Canadian Cabinet has been formed, with Mr. Abbott as President, without a portfolio.

Montevideo, 17—There is no truth in the report circulated this morning that Uruguay is massing troops on the frontier.

In consequence of the thick fog the San Martin came in late.

Small-pox has broken out with great virulence in Dolores, In this city it is still increasing.

A decree has been issued ordering the sale of public lands in Artigas for colonies.

OUR GREENBACK PROJECT.

It is now 16 months since we suggested, in our issue of Feb. 8th, 1890, to convert the present shinplasters of bankrupt banks into Greenbacks of the Argentine Treasury. The suggestion found no echo in the public, the press or the official quarters. We again urged the project on Oct. 1st, 1890, in a scheme which may be briefly summed up thus:—

1. To abolish all connection between banks and paper-issue.
2. To convert the rotten shinplasters by an issue of 100 million Greenbacks, the Caja de Conversion giving one of the latter for 3 shinplasters.
3. To abolish customs-dues in gold, and make the Greenback legal tender in all public offices and all private obligations, except for gold contracts already made.
4. To prohibit all contracts from 1st January 1891 in any other money than Greenbacks.
5. To sell all Government railways and stocks.
6. To abolish the Octroi in Buenos Ayres and support the city hospitals by means of a tax on private carriages and horses kept for show or pleasure.

We do not hesitate to affirm that if our project had been adopted Buenos Ayres would not now be in so terrible a crisis. A similar project was brought forward some months later (Dec. 19th, 1890) by Mr. Charles Bowers, which would perhaps have been as beneficial as ours, the main feature being a currency of Treasury Greenbacks.

Some of the London papers throw out remarks to the effect that we may be able in a year or two to make some arrangement with English capitalists to convert the currency at 12 pence per dollar, which is more or less its present value. We entertain no such hope, since the official statement confesses to an issue of 260 millions, the value of which at 12 pence would be £13,000,000 sterling. If even the London Stock-exchange were to lend Argentina that amount for the purpose the bare interest would be about £900,000 per annum, say 18 millions of present currency. The country is staggering under an excessive debt already, and further borrowing would be madness.

Therefore, it seems that, as Congress has shelved the Unique Bank, the only possible remedy for the existing confusion is a conversion of shinplasters into greenbacks, at three for one. Otherwise we greatly fear that all these Moratorias and discussions in Congress may result in an avalanche of paper-money, overwhelming Pres. Pelligrini, Dr. Lopez, the Casa Rosada and the sentries at the door.

The "paisanos" have a proverb, "neblina, de la lluvia madrina," which may be applicable in our case. The fog in which this Moratoribus law has enveloped us may result in a rainfall of Assignats, Cedulas, Shinplasters, &c., that will reduce most people to the condition of a half-drowned rat.

THE IRISH LAND BILL.

Telegrams announced yesterday that Mr. Balfour's bill has safely passed through the House of Commons, for converting the Irish tenant-farmers into proprietors of their own holdings. The bill was first introduced into Parliament in May 1890, and compensates in some measure for the cruelties practised on the peasantry of Ireland by the crow-bar brigade and battering-ram auxiliaries in the last 12 years. Its main features may be briefly summed up.

The Imperial Treasury advances 200 millions sterling in Consols, the first issue to be for 33 millions, at the rate of 3½ per cent. annual coupons payable by the peasant who wishes to buy his farm. At the end of 47 years the purchaser becomes owner in fee, without any further payment. The bill is in some respects an amplification of the Ashbourne Act, with this difference, that the money is taken not out of the current revenue of the U. Kingdom, but by the operation of increasing the Nat. Debt 200 millions sterling.

It is well to bear in mind that the increase of debt is purely nominal, since the coupons must be paid not by the British public, but by the Irish peasant proprietor. Without stopping to comment on the phenomenon, we have the assurance of Mr. Balfour that, although the Irish tenants were always on such bad terms with their landlords, their dealings with the British Treasury have been most honorable and punctual. After 12 years of the Church Act, Gladstone Act, Bright Act and Ashbourne Act, in which £14,000,000 sterling were lent to Irish peasants by the Treasury, the total of sums in arrear on December 1890 was only £5,000.

There is, therefore, no reason to anticipate that John Bull will lose a farthing by the transaction known as Balfour's Land Bill. But he will, nevertheless, have the satisfaction of seeing, before 10 years are over, that the use of his name, in backing a bill for 200 millions sterling, has done wonders towards lifting up the sister kingdom, after centuries of oppression.

It is a monstrous pity that this Bill was not passed when Mr. Sharman Crawford began his Tenant Right movement in 1852. We should have been spared 40 years of the most painful experience. Not that the present Bill will be welcomed by all classes in Ireland. The landlords are crying out that it is confiscation, and would gladly make an Auto da Fe of Mr. Balfour. In deference to their sentiments the law is not made compulsory upon them, but Mr. Balfour has, during the debate, hinted to them the expediency of coming to terms with their tenants on a basis of 18 years' rental. That is the tenant will agree to buy from the landlord at 18 times the net amount of his rent, after deducting taxes, and the British Treasury will advance a corresponding sum in Consols (we had almost written Cedulas) to pay the landlord. The annual or half-yearly coupons payable by the peasant proprietor will average 6 shillings per annum per acre or 33 per cent of the present rent. The measure was supported by Mr. Parnell, and is destined to prove a great boon to 4,000,000 of the people of Ireland.

THE PROVINCIAL HYPOTHECARY BANK.

THE CEDULA SERVICE.

The following Bill has been passed nem. con. by the La Plata Senate:—

The Coupons of the Cedulas of the Provincial Hypothecary Bank matured, and those Cedulas drawn prior to the 1st of April, 1891, which holders have not yet presented for collection, shall be paid by the Bank out of the returns of the Bank corresponding to previous quarters to 1891, and according as debtors pay up what they owe the Bank, deduction being made of the tax in the cases specified by law of 20th of December, 1890.

Art. 2.—Henceforward the Bank shall continue to meet the service on its Cedulas in the same form in which it paid the coupons matured from March 31st, to April 15th, 1891, that is, in proportion to the sums which, as interest and amortisation, the Bank collects from its debtors every quarter or half year.

Art. 3.—The Board of Directors of the Bank shall determine, 15 days before the quarter or half year expires, the amount which shall be paid in cash on the coupons about to mature, as well as the total sum assigned for redemption of Cedulas by drawings, in proportion to the accumulated fund of each series, according to the amortization tables.

Art. 4.—The unpaid balance of the quarterly or half-yearly coupon, as well as the certificates given for the unpaid balances due on the coupon matured from March 31 to April 15, 1891, shall be covered with bonds payable to bearer, which the Bank shall issue successively, and for the amortization of which (at par by drawing or by tender, at the option of the Bank,) the following shall be applied:—

1—The sums accruing from credits through personal action.

2—The sums collected for quarters prior to 1891, and for penal interest as set forth in Art. 11, in the fulfilment of the conditions specified by Art. 1 of this law and Art. 4 of the law of 18th of April 1891.

3—Any surplus that may be left by the amounts collected from debtors as interest after payment of the total amount in cash on the quarterly and half yearly coupons.

4—The sums accruing from interest and fines for quarters and half years in arrear and from other surplus funds the Bank may accumulate after defraying its expenditure.

5—Any funds the Legislature may vote for this purpose.

Art. 5—The balance of the amortization and the interest due on it shall be applied towards the quarterly redemption of cedulas by tender in accordance with Art. 4, the Bank returning to amortization at par by drawings of those cedulas quoted above 90 per cent.

Art. 6.—The bonds issued by the Bank in accordance with Art. 4 that may not have been redeemed within ten years from the date of issue, shall be consolidated, in accordance with Art. 1 of the Law of 7th of January, 1882, in bonds of Internal Debt of the Province of Buenos Ayres, of half-yearly service, bearing 5 per cent. interest and a minimum of 1 per cent. amortization, which shall be effected by tender or drawing at par, at the option of the Executive. The Legislature shall duly determine what funds shall be applied towards the service on these bonds.

Art. 7.—Cedulas of the Series E, localised in gold abroad, shall come under the provisions of this law. The cash balance on the coupon of this series shall be reduced to gold and duly remitted, gold bonds for the unpaid balance being given according to Art. 4. The provisions of Art. 6 hold good for these bonds, gold bonds of Internal Debt being given in case of consolidation.

Art. 8.—The Cedulas and coupons, the certificates issued in accordance with the Law of 18th of April, 1891, the bonds and their coupons issued in accordance with this law, are hereby exempted from all Provincial taxes, with the exception mentioned in Art. 1.

Art 9—The Bank shall allow its debtors in arrears to consolidate their delayed service and fines in a fresh hypothecary obligation on their properties, so long as these properties represent double the amount due. These obligations shall pay in advance 4 per cent interest and 5 per cent amortization half yearly.

Art. 10—The Bank shall receive at their nominal value in payment of or on account of credits through personal action, certificates, bonds, and bonds of internal debt referred to in this law. In cases of final arrangements for smaller amounts, the Bank shall demand 50 per cent in cash.

Art. 11—The penal interest for morose debtors shall be, from first of October of this year 10 per cent per annum on the aggregate sum of the service.

Art. 12.—In the case of amortization by tender, the Board of the Bank shall not accept any difference greater than 5 per cent with the market quotation.

Art. 13.—The Bank shall receive in payment 50 per cent at the nominal value in certificates cedulas, bonds and cheques of the Provincial Bank of B. Ayres, and the other 50 per cent in cash. The cheques shall be received until the amount due by the Mortgage Bank to the Provincial Bank shall have been entirely wiped out.

Art. 14.—The cedulas handed in payment to the Bank must have the coupon of the quarter in which they are thus paid.

Art. 15.—The Bank shall open a special department for auctions, no commission being paid, the advertisements to be published in a newspaper of large circulation in the city of B. Ayres and in a newspaper of large circulation in this city.

Art. 16.—Execution of morose debtors by the Bank shall he suspended for six months.

Art. 17.—All provisions against this law are hereby repealed.

Art. 18.—Let this be communicated etc.

MERCHANTS' PETITION.

The following is the text of the petition sent to the President of the Republic by the wholesale merchants of Buenos Ayres:—

To H.E. the President of the Republic,

We, the undersigned, merchants of this city, beg to state: That, in view of the passing by Congress of a law conceding 3 months' moratorium in commercial obligations, we consider it a duty to request Y.E. to veto this law.

This question has been discussed in Congress and in the columns of the Press, and the arguments for and against it will have sufficiently convinced Y.E. without our coming to call Y.E.'s attention to the terrible injury the promulgation of this law must inflict on the country and its trade.

We will merely state that Y.E. will find that the greater number of signatures at the foot of this petition are the same which when called upon to subscribe to the Internal Loan did so, as far as their respective orbits of action did permit, in the desire to shew the Government in that solemn moment the commercial community were anxious to help those who, they believed, could save the country from the evils of the situation.

It cannot be said that, merely because we are creditors, we ask Y.E. to veto this law which would impede us for the moment from enforcing the claims we have on our debtors. Suffice it to state, in reply to such an assertion, that, according to trustworthy reports, not one merchant has been declared bankrupt before the Commercial Tribunal who is in solvent conditions. All those in such a predicament have arranged either privately or judicially for the necessary Moratorium. Trade is a chain; each one is a debtor as well as a creditor, and a measure of this nature would involve a complete paralyzation and cause no doubt many victims in a commercial way who without the Moratorium Law would not have met with any obstacles in their way.

We could adduce numerous and lengthy considerations, but we consider them unnecessary for our purpose of requesting Y. E., in harmony with what was partially maintained by the Finance Minister in the Senate, to veto a law which, we believe, will defeat its own ends and which, in our commercial experience, we view as a calamity for trade and for the country.

Amongst those who subscribe, Y. E. will note representatives of all branches of commercial business; consignees, drapers, auctioneers, commission agents, iron-merchants, importers, exporters, druggists, etc.

(Signatures.)

THE PORTUGUESE CRISIS.

Lisbon, 12th May.

The monetary crisis still continues. Trade is almost paralysed, and the want of coin is making itself greatly felt on the market. There are plenty of notes of the Bank of Portugal of different values, but it is not easy to change them in ordinary commerce, owing to the want of metal currency, although occasionally a note is changed, but at a high rate. The Bank of Portugal to-day only changed its notes for other notes of different values; but to-morrow offices will be opened in various parts of the town for the exchange of small portions of notes, so as to facilitate commercial transactions. It is hoped that in a few days the circulation of the notes of the value of 2,000, 1,000 and 500 reis will commence. The Mont de Piete General, a sort of popular bank, continues business in spite of the numbers of small depositors who flock to the establishment in order to withdraw their deposits. A notice was posted up stating that the Bank would continue the payment of deposits during the ordinary hours of business. All the other banks, except the Banco Lusitano, are meeting the demands made upon them by paying out notes. It is stated that a decree will be published to-morrow morning ordering a forced note currency. The Cabinet at its meeting to-day was occupied exclusively with the measures to be adopted to alleviate the financial crisis and to ensure the maintenance of order.

Lisbon, 13th May.

A semi-official contradiction is given to reports published by some foreign papers depicting the political situation in Portugal in very sombre colours. It is declared that perfect tranquillity prevails everwhere, and the present crisis is solely of a financial character, complicated, to a certain extent, by economic and labour difficulties. The financial situation this morning is slightly easier.

The King yesterday consulted several politicians regarding the situation. The report, however, that a Ministerial crisis has already occurred, and that the former Finance Minister, Senhor Mariano Carvalho, has been entrusted with the formation of a new Cabinet, is incorrect.

Senhor Mariano Carvalho to-day replied to the industrial and workmen's delegates who had asked his advice concerning the course to be pursued in view of the present disturbed situation. He stated that he had the authority of the Government to assure them that measures had been taken to provide an abundant supply of small coin in order to facilitate business. Senhor Carvalho expressed the hope that the monetary crisis would speedily pass away, and reassured the delegates regarding the political situation, taking occasion to defend the monarchical form of Government and to eulogise King Charles.

Some anxiety is felt here regarding the payment of rents, which fall due half-yearly on 25th May and 25th November. It is feared that difficulties may arise on the 25th inst., and precautions have been taken by the authorities.

The financial situation improved sensibly during the day. Various private offices were open for the exchange of bank notes against specie. In the produce market this morning several agents cashed all the notes offered to them, but some persons holding notes preferred to keep them, as being easier to carry than money.

The stockbrokers have received many purchase orders for Portuguese Rente, but no selling orders.

The withdrawal of deposits from the Mont de Piété General continued throughout the day.

The *Official Gazette* will to-morrow publish a decree authorising the issue of bank notes of 1,000 reis and 500 reis.

Madrid, 13th May.

Intelligence has been received from Lisbon to-day that the censorship of telegrams is exercised so severely that even news destined for the official journal is stopped. Several of the Ministers are opposed to any scheme for a forced currency. It is stated that the Bank of Portugal has been authorised to issue notes of the value of three francs. The well-known Portuguese writer, Latino Coello, pronounces a severe judgment upon the present position of Portugal, in which he says:—

"We have a colossal deficit and ruinous loans contracted upon humiliating terms, and we are now confronted by a monetary, industrial, agricultural and labour crisis of a threatening character, to which we may add international difficulties, and an interminable diplomatic discussion."

Paris, 13th May.

In answer to questions put by a representative of the *Eclair* to a member of the staff of the Portuguese Legation here, the latter stated that the present crisis in his country was purely financial, and did not possess the extremely grave character ascribed to it by the alarmists. The Republican Party would not succeed in converting it into a political crisis. At the present moment a Republican revolution was an impossibility, as the Republicans were wholly in the minority, and had not a single man capable of directing such a movement. Moreover, the Republicans were making the less progress, because the Portuguese people had had time to perceive the disastrous results of the establishment of the Republic in Brazil.

The same journal publishes an interview with Señor Batanero de Montenegro, a member of the Spanish Chamber of Deputies, who stated that a revolution in Portugal was wholly improbable under existing circumstances. The Spanish Government was essentially Conservative, and at the first attempt to overthrow the Portuguese dynasty, Sr. Canovas del Castillo, the Spanish Premier, would interpose to assist the Monarchy.—*Reuter.*

DISTRESSED WORKMEN.

Mr. Editor,

I take up my pen in behalf of the British workman, who has been induced to come to this country of "unlimited resources"—sometimes by lying solicitation—and has found himself landed at last in anything but an El Dorado.

An article appeared in an evening paper of Saturday which noticed your remarks of the same day on the advisability of providing a fund to enable British subjects to return to their native country. The article I refer to is signed "Mr Cooper".

"Mr. Cooper" says, "truly there is no work for him who does not wish to work". May I take the liberty of observing that the mere fact of offering work to a man who is not fitted for it, or which would go against the grain from the kind of labour required of him, or the amount of which, in his opinion, is altogether out of proportion with a "fair day's pay for a fair day's work", or anything like what he would obtain for his services in his own country—is no indication that such a man does not wish to work.

Mr. Cooper expresses great surprise that men who have come to this country to obtain work should be asking to be sent home again, and therefore must be a lazy lot, because they will not accept the munificent offers of the "Oficina Nacional de Trabajo". Let us, Mr. Editor, deny this inference in toto. As a man of experience, having employed labour of a dozen different nationalities during forty years, I declare that I know of no land so poverty stricken as to offer such a miserable pittance as fifteen to twenty pesos (paper at 400), or less than five shillings a week, even with the addition of a kilo of meat, a kilo of maize and two ounces of rice per day, for the labour of two stalwart arms from daylight to dark; or in Municipal employ, 30 pesos a month, equal to 7s. 6d. per week, and no grub added.

Skilled labor in England is paid at from 2 to 2½ dollars gold, and unskilled labor in cities from one to one and a-half dollar or twelve cents gold per day at least; while here, at the best of times, the wage is not half as much, and now is only a quarter. The agricultural labour in England is paid from 50 to 80 pesos (at 400) per week, with a house—a real house to live in—for a song, and a bit of ground for him to till into the bargain.

Is the poor Englishman here to be snubbed and insulted, and told that he is lazy because he is not working, and desires to return to what to him is a paradise compared with what this country offers him?

Take the Irish emigrant who was cajoled into coming over here about two years ago. He did not come to labor for a daily wage of six-pence, he came on the promise of a recognized agent of the Government of this Republic that he should be established on his own bit of land as a Farmer. Where is he now? Expatriated, disappointed in his hopes, severed from his family he would and must inevitably have been, but for the kindness of his countrymen here, who have placed him, family and all, on their estates—in many instances only for charity's sake. And the rest of them who have accepted 3$ to 5$ a week, with a "kilo of meat" and a "kilo of maize," and "two ounces of rice" a day, I ask where are they with all this for a week's work of unlimited hours, in all weathers, to be decimated again as they have already been by sickness, to say nothing of the injurious effects of the "heart ache." Where will they all be shortly?

The negro laborer in North America is better off. He gets his half dollar gold, 14 lb. fat bacon per day, and two pecks of meal per week in addition; and the the white man on the farm gets his dollar gold a day, sits at the same table as his employer and sleeps under the same roof or another equally good.

When Britishers, skilled and unskilled, emigrate to the United States or any of the British colonies, they do better themselves. Twenty years ago—and for years after, if not at the present time—I know that the English mechanic in North America got five dollars gold a day, while living was so reasonable that he could board out luxuriously for five dollars per week, or for one day's pay. Yet, Mr. Cooper has the effrontery to say that this country, even at the present time, is not equalled by any other in advantages to the working man.

About two years ago a lot of skilled British workmen—some one hundred—were induced to come here to ply their calling, and they were offered at least as much as they earned at home. With many of them, on hearing of the "illimitable resources" of this country, "hope told a flattering tale." Hard times, however, came on, as we all know, and nearly all of them (except about a dozen who have died here) have either gone or would now like to go back home. Penniless I know many of them are now, and no work suitable offers for them to do, or rather at prices they have been accustomed to. Some of them have families in England, as badly off as the head of the family is here, and that only because he is here. Shall the wish of such a man to get back home again be put down as evincing no desire to earn his living? No! The wish to clear out is a righteous one, and for my part I shall hail the news, and my heart will rejoice when I hear that the British Government, like the French and Spanish authorites, have placed a fund at the disposal of Minister or Consul to send such poor fellows back again; for they will at least then be away from the heavy and unjustifiable reproach that they would rather be street beggars than work for their living.

MYSTERIOUS ROBBERY.

Some time ago Dr. Faustino Alsina's house was broken into and some 13,000 dollars were taken from a safe in his study. The police immediately set about to find out the perpetrators of this robbery, but as no trace could be found of the robbers, nor any clue obtained that might lead to the discovery, the affair was simply dropped, and in fact almost forgotten, when the other night a slight circumstance awakened the suspicions of one of the police-inspectors, Mr. Artidoro Sellanes. The inspector was informed that a mulatto had been seen spending money profusely in a drinking-house at the corner of Corrientes and Libertad. This circumstance was brought to the notice of Commissary Picabea. This gentleman and Mr. Sellanes went immediately to the drinking-house in question, and on inquiring found out that the mulatto had not only spent a lot of money, but had actually offered the proprietor $2,200 for the business. To cut a long story short, the mulatto was caught, and his accomplices were caught, and it was discovered that he and his two accomplices had perpetrated the robbery in Dr. Alsina's house. On the perpetration of the robbery the three went to a house in Flores to divide the booty. The police have discovered a large amount of money buried in the patio of the house. Large sums were also found on the two accomplices, one of whom had purchased the good-will of a grocery-store for $800. The mulatto had spent all his money. Dr. Alsina has received what has been recovered of the stolen money. The police are to be congratulated on their activity in this case.

FOOTBALL MATCH.

FLORES ENGLISH COLLEGE v. ST. ANDREW'S SCOTCH SCHOOL WITH 2ND TEAM ST. ANDREW'S CLUB COMBINED.

This match was played last Saturday on the St. Andrew's Club ground at Barracas, in very doubtful weather. However, the rain kept off till the game was ended, thus affording the opportunity to these two clubs to try their strength for the first time. Rarely has there ever been witnessed a keener game of football amongst boys, both sides doing their utmost; and especially noticeable was the scientific way they played, both sides deserving high credit. In the first half, Captain Ellis-Arthur's boys scored the first goal after 35 minutes of sheer hard work. In the second half the "Scots" won the first and shortly afterwards another; but then the "Hibernians" determined to pull themselves together, and this they did in grand style, eventually winning by four goals to two one of the hardest-fought games ever witnessed amongst boys in this country. The only drawback to a very pleasant game was the very disorderly and disrespectful dispute by the "Scots" with their own umpire and referee; an "old" boy umpired for the "Scots" and Captain Ellis-Arthur umpired for his "Hibernians". The referee was another "old" boy of the Scotch school.

The following is a list of the names:—

Captain Ellis-Arthur's side—
Forwards—Albert Jones (capt.), James Lynch, Thomas Lynch, James G. Cotter and Charles Woodgate.
Half-backs—Denis Austin, Gifford Adams and Mark Mackey.
Backs—Joseph Ronayne and Ralph Barton.
Goal-keeper—Julio Biaus.

The Scotch School and St. Andrew's side (combined)—
Forwards—T Bridge (capt.), F Horton, E Brooking, E Froggatt, and R Mackinnon.

COSMOPOLITAN SICK BENEFIT SOCIETY F.C. CAMPANA.

A grand concert in aid of the funds of the above Society was given in the F.C.E lecture hall on Saturday evening. The hall was crowded to its utmost capacity, among those present being representatives of the leading familiies of the town and neighbourhood. Mr. W. Breedon, the President of the Society, in his opening address, gave some interesting details as to the working of the same, his reference to the "bank sickness" being received with loud applause. The artistes of the evening were all amateurs, and went through their parts in excellent style, the best received items being the "Christy half hour," "A Soldier and a Man" by Mrs. Ambler and Mrs. Harcham, a French song by Madame Untersteller, and "Boccaccio" by Sr. Sicher.

A word of praise is due to the committee of arrangement (Messrs. Bjorkman, Breedon and Astolfoni) for the excellent preparations made for the comfort of all.

RAILWAY ITEMS.

The Courts have decided in favour of the Anglo-Argentine Tramway Company in the case brought about by an ordinance of the Municipality ordering the Company to remove their rails in Calle Piedad from Callao westward. The Company protested through their lawyer, Dr. Fresco, and, as we have already stated, the Judge has given it in favour of the Company.

A London exchange by the last mail says:—

"The bondholders of the Entre Rios Central Railway and the Entre Rios Central Railway Extensions, met under the presidency of Mr. R. J. Nield, and appointed a committee to confer with the directors of the River Plate Trust, Loan and Agency Company, the trustees of the bondholders, as to the proposed scheme under which the Entre Rios Government is to hand over the railways and certain bonds in exchange for the bonds on which the Government has failed to pay the guaranteed interest."

The Central Argentine Railway Company have laid before Government the plans of their proposed Locomotive Shed at Capilla del Señor on the San Fernando and Pergamino Branch.

COMMERCIAL UNION ASSURANCE CO., LIMITED.

The Directors have much pleasure in submitting to the shareholders their Twenty-ninth Annual Report with the audited accounts.

Fire Department.

The net premiums of 1890 amounted to £939,298, being an increase of £91,499 as compared with the year 1889, and the losses, paid and outstanding, to £580,860, being 61¼ per cent of the premium income.

From the profits of this department the sum of £50,000 has been carried to profit and loss, and after providing for outstanding losses, the fire fund stood at £826,692 as against £772,573 at the same time last year.

Life Department.

The policies issued during the year were 593 in number, assuring £438,298, and the new premiums brought into the account amounted to £16,505.

The net premium income showed an increase of £5,918 per annum.

The surplus resulting from the year's transactions amounted to £105,608, and increased the life fund to £1,288,794.

Marine Department.

The net premiums received were £224,529, and the net losses, paid and outstanding, amounted to £181,849.

From the profits of this department the sum of £25,000 has been carried to profit and loss, and after providing for outstanding losses, the marine fund stood at £250,691.

Profit and Loss.

This account has been closed with a balance of £65,564 carried forward to 1891, and out of that amount the directors recommend the payment of a dividend at seventeen shillings and six-pence per share (free of Income-tax), making, with the interim dividend paid in November last, 25 per cent for the year.

The representative in Argentina of this well-known London Company is Mr. Maitland S. Edye, Calle Reconquista 268, who has full power to accept risks and pay claims without prior reference to the Head Office.

EDITOR'S TABLE.

The weather was so gloomy yesterday that even the Moratoribus lost its attraction as a general topic of talk. The sun seems to have retired from business, or taken an indefinite Moratorium. As regards, politics, finance and all the ills of the day there was nothing new. Dame Rumour said a good deal, however, and an evening contemporary had some queer news from La Plata about the hazy chance of the July coupon on Cedulas being exchanged for even the smallest amount of legal curreney.

We are requested to announce that owing to the high price of gold, the Committee of the British Hospital are reluctantly compelled to raise their charges to $5% for the general ward and $15% for the private ward. The Committee are under heavy expenses in gold for salaries, medicines and interest on debt, and are very much in need of funds; so they hope to have the assistance of the British Community in the way of subscriptions. The Hospital has been so continually full of patients for some months, that it will be necessary very soon to consider a scheme for its enlargement, if it is still to supply the wants of the British Community.

There was no news from Chile yesterday, but we heard in well-informed Chilian circles a report of a pitched battle. The telegraph has yet to confirm this report.

The National Labor Office sent off 109 immigrants to different parts of the country on Tuesday. Moreover, the office received demands yesterday for no less than 1677 laborers of all kinds. We advise people without employment to apply to the N. L. Office, which is no doubt doing a deal of good in its way.

The Rev. Father Victor, C.P., begs to inform persons going to Sarmiento station for the meeting to be held Saturday next the 20th inst, that arrangements have been made with the Railway Company for a special carriage at reduced rates, which will leave the Once station at 7.25 a.m., returning at 6 p.m. The special tickets for the journey can be had from Mr. Patrick Ham at his office in Calle San Martin 416, or from the same gentleman at the station on Saturday morning.

The Argentine Government has received a pressing invitation to attend the Health and Vital Statistics Congress in London in August next.

The Newspaper Boys' Night Refuge is going ahead swimmingly. The house has already been taken and in a very short time it will be opened with 108 beds (to start with) which have already been purchased. A Committee of Ladies have volunteered to go round the city and ask all the principal houses for monthly subscriptions, the maximum to be 0.50 cents. This idea is certain to produce at least an income of $1,000 per month, which, added to the Press subscriptions and theatre and Fronton benefits, will give this worthy undertaking a certain basis. The Jockey Clubs are the only people who have refused to lend their aid to this much-wanted institution.

We have no space to-day for a letter on the interesting "Model Railway Manager" question sent to us yesterday, so we hold it for our next issue.

A citizen of credit and renown died in Montevideo the other day, and the published invitation to attend his funeral was signed by *twenty* of his children. His ashes certainly deserve peace.

The La Plata Senators met on Tuesday and resolved to call on Government to explain why it had made a present to certain favoured citizens of State land in the capital of the province and on the new port. There will probably be a nice breeze about this fresh evidence that the bad practices of the times of boom and "backsheech" are not over yet.

The Central Uruguay Railway is in for a lawsuit for $50,000 (gold) damages for killing a man's wife in an accident. This will give River Plate wives in general an idea of their post-mortem value. The highest price as yet claimed in the Plate (that we can remember) for killing a husband in a railway smash is $30,000; so it is evident that "the grey mare is the better horse" in these regions, as elsewhere.

The Lord Mayor got rather the best of it in the interpellation he was subjected to in the Town Council on Tuesday by Alderman Torino, on a variety of subjects. Nevertheless, a Committee was named to report on the matter. Alderman O'Farrell, who was one of those named, said he was thoroughly sick of all the Committee nonsense going on, and would have nothing to do with it. Councillor Repetto also refused. Finally a Committee was patched up. The public have come to the conclusion that, with some few exceptions, the present freely elected City Fathers are no improvement on their predecessors named by Government.

The rumour about the loss of the Spanish steamer Cataluña turns out to be false. She was sighted off Rio, all right, by the steamer Cortes. This will relieve the anxiety of those who have friends on board the first vessel. The *Telegrafo Maritimo* says that the frequent reports of the loss of steamers of this Spanish line are merely efforts of the agents of rival companies to injure it. This is a very serious charge.

Mrs. Duggan thankfully acknowledges the receipt of $100 m/n from Mrs. O'Connor for the Father Fahy School, Boys' Orphanage.

Colonel Espina is again a free man, the court of inquiry having decided that there was no just cause for his arrest.

Dr. Arata, the City Analyst, says that the scare about the impurity of the "aguas corrientes" is quite gratuitous. Mr. Pirovano, head of the Engineers' Department, went to the Boca yesterday to examine the broken syphon on the Riachuelo.

Mr. Henniker Heaton has been telling some good stories at the Royal Colonial Institute lately, apropos of the manners and customs of the Australian aborigines. There was a good missionary in Queensland, who had an idea that Christianity might be disseminated among the blacks there without recourse to bribery. King Billy, a tribal chief, got wind of this strange notion. "No more 'bacey?" he asked. "No," quoth the missionary. "No more blanket?" demanded his majesty. "No," said the missionary. "No more rum?" gasped the monarch. "No," said the missionary; "no more bribery of any sort." "All right; good day," said the king, bluntly; "no more alleluia!"

There is a brig now in Montevideo harbour with 360 tons of dynamite on board. If that brig were to blow up, the last brick of Montevideo would be found at the Equator or on the West Coast of Africa.

The tramps of the city, male and female, have now taken to indulging in a morning snooze in the city churches. The moment the doors are opened they pour in, as if to pray, and are soon to be heard snoring on the seats while Mass is going on. The police ought to put a stop to this at once, as such false worshippers are a danger to the health of the real ones, to say nothing of the inconvenience to decent people caused by the proximity of such unwashed and unsavoury creatures.

G. was very fat, and being a bankrupt was met by one of his creditors with a "How do you do?" "Pretty well! You see I hold my own yet". "Yes," said the other, "and mine, too, to my sorrow".

The indefatigable Postmaster-General, Dr. Zeballos, should take note of an interesting

There was a mild boom in shares of the Banco Constructor this afternoon. Nearly four thousand shares were sold, prices rushing up to 6, in midst of the blank astonishment of all; the price, however, could not be maintained and the market closed at 5.20. Obligaciones were flat. Catalinas shares rose to 9.30 and closed at 9. A few hundred National Bank shares changed hands at 33.50 and 33. Cedulas were flat.

There is a knotty question now being discussed by the Ministers of Finance and Interior about reforming the present system of delivering parcels and samples that come from abroad by post. It is proposed that the formalities in connection with the business shall be transferred from the Post Office to the Custom House.

The returns of the Custom House to-day amounted to

	$
Imports	27,470.06
Exports.....	468.54
	27,938.60

Receipts in gold, $3,437.39.

The returns of the year up to date amount to $21,203,817.76 paper and $138,786.02 gold.

The Finance Minister has fixed 358 as the gold rate for Customs dues to-morrow.

In Congress to-day the discussion on the Reduction of Duties and on the 2½ tax on bank deposits was put off till next Wednesday, when the estimates of the Budget will be produced.

The directors of the English Bank of Rio de Janeiro, which after the 30th of this month is to be known as the British Bank of South America have issued a very favourable report. The gross profits for the year 1890 amounted to £184,772, and the net profits to £98,357. After making a total distribution of 10 per cent., the directors have been able to raise the reserve fund to £225,000 by adding to it the sum of £50,000 out of the available profits. With reference to the sale of the bank's Brazilian business to the Banco de Credito Universal, the report states that of £875,000, the purchase money agreed upon, £500,000 has been paid, and the whole transaction will no doubt be completed by the 30th of June, the date fixed upon in the agreement. From the £875,000 a commission of 2½ per cent has to be deducted, leaving a net amount of £850,000 to be received by the bank. In this regard the London *Financial Times* says :—"No mention is made in the report as to whether the directors have decided to modify their proposal as to the proportion of the purchase money that should be distributed to the shareholders. The amount of £2 10s. was suggested in the circular issued by the directors in February announcing the terms of the provisional agreement with the Banco de Credito Universal. At the special meeting, however, some of the shareholders took the view we had previously expressed and suggested that a larger division should be made. The directors' reply was that the question should be left until the ordinary general meeting in May In the meantime, the feeling in favour of a larger sum per share being distributed has increased, and no doubt the directors will agree to increase the amount of the bonus they originally proposed. As we stated at the time the details of the sale were made public, it would be absurd for the directors to distribute only £125,000 to the shareholders, retaining the balance of £725,000, or £225,000 more than the bank's paid-up capital, to be utilised for the purpose of extending operations at the Plata. The board have made an excellent bargain, and if they are well advised they will modify their idea in the direction indicated. The meeting takes place at noon on the 21st inst. at the Cannon-street Hotel."

The directors report of the Liebig's Extract of Meat Company states that the balance of the profit and loss account amounts to £107,426 11s. 10d.; out of this an interim dividend of 5 % was paid on the 14th February last, amounting to £24,000; and the directors propose to appropriate the balance by paying a dividend of 12½ %, making, with the interim dividend, equivalent to interest at the rate of 6 % per annum, and a bonus of 11½ % per annum (both free of income tax); £7000 is to be carried to the reserve fund, leaving a sum of £5,211 11s. 3d. to carry forward to profit and loss new account. The dividend will be payable on the 30th June.

"The ordinary general meeting of the National Bank is convoked for the 30th inst., to receive the annual report and accounts. DAY, SON & HEWITT'S Veterinary Medicines

Mr. Wm. Kemmis, the well-known breeder of fine stock, writes as follows:—

Estancia Las Rosas,
Ferro-Carril Central Argentino,
10th Jan., 1891.

I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.

The GASEOUS FLUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider splendid.

Yours truly,

(Signed) W. KEMMIS.

DR. J. COLLIS BROWNE'S

CHLORODYNE.

The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.
From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880.
To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Convlction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co.
Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists'
CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworm to.—See the "Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelmning medical testimony accompanies each bottle.
CAUTION.—Befare of Piracy and Imitations.
